Certification Recertification Reminder

## **Prairie Chapter Notice of Meeting**

Members who present at Chapter or National events, or who serve on a Chapter Executive Committee or the National Board of Directors, earn valuable points toward certification recertification.

Prairie Region National Directors

- Lloyd Appelt
- Jeff Down
- Gurwinder Bhambra

National Association Updates

Presented by: Beth Firth, Executive Director

### **2026 CMVA National AGM & Training Conference**

- Edmonton, Alberta
- Certification examinations available
- Additional details are available on the CMVA website

---

### **New Business**

Members are invited to bring forward items for discussion and potential motions.

Topics for discussion include:

- Student membership recruitment in conjunction with the CMVA October Conference at NAIT
- Campus advertising initiative, including banners and printed promotional materials prior to the event

---

### **Bursary Information**

The Prairie Chapter currently awards one \$1,000 William F. Eckert Memorial Bursary. Chapter members may propose revisions at any Chapter Meeting to change the bursary amount and/or the number of bursaries awarded.

The first bursary was awarded in 2009.

Eligibility

The bursary is open to residents within the Prairie Chapter region who are attending a university, college, or technical institution in the Prairie Provinces and are enrolled in engineering or industrial trade programs that utilize, or may utilize, industrial vibration and condition monitoring technologies.

Application Deadline

October 1 (annually)

---

### **Next Meeting**

Discussion and confirmation of the next Prairie Chapter meeting, tentatively scheduled for September 2026.

Adjournment

## **Prairie Chapter Notice of Meeting**

Meeting adjourned by President Gurwinder Bhambra

---

### **Technical Session**

2:00 PM – 2:45 PM

Adrian and Eric – Spartan Controls: Pump Analytics Presentation

2:45 PM – 3:00 PM: Nutrition Break

3:00 PM – 4:00 PM: Owen Hicks – Spartan Controls SME (FLIR)

Thermal Imaging and FLIR Technologies Presentation

---

### **Open Technical Discussion**

Members are encouraged to share machinery challenges, case studies, and reliability experiences with industry experts and fellow members. Discussions often generate practical solutions that can be applied directly within participants' facilities and operations.

### **Host Facility**

Spartan Controls
